

Digicel Foundation

DOMINICA HOMES REHABILITATION PROJECT

To Whom It May Concern:

28th August 2018

Mr. Amit Weiner.

Amit has been working with me for the past 8 months, as part of the IsraAID collaboration with the Digicel Foundation to rebuild the homes of families on the East Coast of Dominica severely damaged or destroyed by Hurricane Maria.

As the new Shelter Program Manager for Israid, Amit faced a difficult baptism into the project with little or no handover from his predecessor and at a time when the project was starting in earnest.

However, Amit rose to the challenges admirably and quickly got to grips with the technical and logistical constraints and hurdles we faced here on a post-Maria Dominica! His technical expertise along with a level-headed and calm nature soon saw the project become a reality.

This alone was no mean feat, dealing with a raft of bureaucracy as well as very limited supplies of material and an even more limited supply of skilled workers.

Add to that, the very poor communications in the area of the project, as well as very basic living conditions, make Amit's success all the more laudable.

In short, Amit became the mainstay of the project and I would welcome him on any future project and have no hesitation in recommending him for future employment.

Regards,

Peter Court,

Project Manager, Digicel Foundation. Court.eds@outlook.com
